

Providing copyright metadata to Europeana

Copyright metadata values

Value for <edm:rights> must be a **rights statement Uniform Resource Identifier (URI)**.

Available values

Note that URIs you provide in the metadata must be exactly as specified here, which means that they must start with http, and not https.

1. Creative Commons Licenses

We accept all versions with or without the relevant port that conform to this URI pattern:

[http://creativecommons.org/licenses/ {license-properties} / {version} / {port} /](http://creativecommons.org/licenses/{license-properties}/{version}/{port}/)

Version	License-properties	Port (optional)
